Drones: The Risks & Usage in Insurance

What they do: The Risks they pose & benefits for post loss management

Date:

Thursday 11th August 2016

Time:

6 - 7pm

Speaker:

Perran Bonner, Director of Unmanned Services, Strat Aero PLC

Learning Objectives:

By attending this seminar delegates have an understanding of:

- The use of unmanned aerial vehicles and how they operate within CAA regulations;
- How data analytics can be used to provide detailed and highly accurate data for commercial organisations; and
- How this data can be used to increase efficiency and costs within the insurance industry.
