The Principal Factors impacting on Catastrophic Injury Claims

Date
Thursday 26th January 2017

Time
6.00pm - 7.00pm

Speaker
Elaine Chapman
Partner, Weightmans

Learning outcomes or Lecture review

- Claim strategies
- Practical tips to deal with CAT claims
- Forecast what might be on the horizon

A catastrophic injury, such as the negligent or intentional act of another, or by a dangerous or defective product, or a personal injury claim by the victim, is an integral factor in determining his or her future quality of life, including the value of the medical care and other support he or she will receive. Without warning, a catastrophic injury or illness usually occurs suddenly and is considered calamitous due to the enormous impact on the lives of the individuals who experience them.
